The stock market has been decidedly more active to-day, and, while somewhat irregular, and at times feverish, has exhibited a great deal of strength, the result of the day's operations showing decided gains over last evening. The street has been unusually well supplied throughout the day, with rumors of an extremely varying nature. The following was issued: . "Any report of amicable adjustment of differences between the railroads is cheap talk, and emanates from the gentry who are using every endeavor to bolster and un-load. Nothing is known here of the final issue, and you may depend upon it that reports to the contrary are lies." Dispatches similar to this were many during the business portion of the day. Just before the close of the board it was announced that the meeting had adjourned, and that while a some advance had been made in the negotiations, nothing had really been done, and the outlook was not improved as compared with yesterday. A prominent feature of the early dealings was the strength developed in the grangers, secompanied by the statement that the buying or-ders emanated principally from Chicago, and this was interpreted as indicating that the railroad troubles were on the eve of settlement. At the same time Vanderoilts were weak, and both New York Central and Lake Shore declined while the remainder of the list advanced. The activity during the first hour was so great that the trading amounted to over 123,000 shares, or more than has been traded in for the same hour at any time in the past two months. After 11 o'clock the market was more quiet and prices were steadily held with tendency toward lower figures, but at 1 o'clock there was a sharp rally, after which it became duil and steady and so continued until late in the day. In the last half heur the whole list became steady, and advanced 1/2 to 1/2 per cent. for the active stocks, the market

finally closing strong at or very near the highest

quotations reached. The total sales were 317,000 shares, but St. Paul contributed 80,460 shares, and more than one-half of the day's business was confined to trading in but Lake Shore, Union Pacific and Lackswanua were also active. St. Paul opened down % per eent, at 66%, but quickly advance ! to 67%, then to 66%, and in the forenoon lose to 65%. It did not again sell below 67%, and before 2 o'clock rose to 68%. In the last hour it touched 68%, and then rose to 69, closing finally at 68% a gain of 1% per cent. Northwestern in the morning rose from 911/4 to 98%, sold again at 92% and 93 before noon, and in the afternoon touched 95%, but on the final rally reached 95%, closing at 93%, which is also a gain of 1% per cent. New York Central first price was 86, a loss of ½ per cent, and in the first boor it fell to 85%, but sold again before noon at 86% and 85%. In the sitempoon it sold again set 75% and 85%. nitermoon it sold again at 75%, and then rose to INDIANAPOLIS WHOLES ALE MARKET. 86% and closed at 86% a net gain of 1/4. Lake Shore fluctuated between 51% and 53%, and closed with a sain of I per cent. at 53%. The only active Gould stock was Union Secule, which rose from 48% to 49%, a gain of 1%. Lackawanna on finetu-ations of 1 per cent., with the opening the lowest, and the closing the highest of the day at 104. Other advances were for smaller fractions than those quoted. It is claimed this evening that while the meeting at Chicago adjourned without a settlement of their troubles, the heavy buying of the granger stocks by Chicago houses indicate that a settlement is near at hand, and with this question out of the way the market should securities of the Southwestern roads is promised at an early day, based upon the improvement in the business of those roads. There was a fairly well distributed business in railway bonds, while the trading in Erle seconds, new, was unusually large. The total sales for the day argregated \$1.911,000. of which Erie seconds, new, contributed \$1.693,000, leaving \$848,000 to be dis tributed among the other issues bought and sold. The Erie seconds, new, were weak at the opening. showing a decline of 1% per cent. at 51% but they rallied to 52% in the forencen and later to 53%, sold again at 52%, and closed with a net advalue of ½ per cent. at 52%. Jobbers in dry goods are doing a fair business, though somewhat checked by the unsessonable weather. Groceries continue to do a fair amount of trading, and prices are well maintained and steady. Dried fruits, canned goods, and fish continue dull and inactive. Butter and cheese are still weak. The demand for green vegetables is rether br sk, but prices keep going down, and with a few warm days everything will be chesper. Eggs continue weak.

GRAIN. Whea -Local dealers have advanced their bids to \$1 05 for cash No. 2 red, which is 2c higher than Thursday.
